

TECH TALKS BY LINUX CLUB

CYBER SECURITY

How to hack anyone?

WARNING

As you explore cyber security techniques, please use your skills **responsibly**. Do not imitate or perform any actions demonstrated without proper **authorization**. Ethical conduct ensures a safer digital environment for all.

**“WITH GREAT POWER COMES
GREAT RESPONSIBILITY”**

**WHAT IS CYBER SECURITY !?**

Cyber security is the practice of protecting systems, networks, and data from digital attacks. It involves implementing measures to prevent unauthorized access, exploitation, and damage to information and systems.

Cyber Security Market size is forecast to reach \$185.7 billion in 2024 to **\$424.97 billion in 2030**

**WHAT IS THE NEED !?**

As our reliance on digital technologies grows, so does the importance of cyber security in safeguarding personal privacy, business operations, and national security.

LET'S HACK !

I'm requesting your permission to demonstrate a cybersecurity concept using Metasploit and a controlled malicious APK on your device. This demonstration is solely educational and will not cause any harm.

BE A HACKER WITH ETHICS

Participants are hereby reminded not to replicate or attempt any hacking techniques or exploits demonstrated during the session, without proper consent. Presenter or the Linux Club assumes no responsibility for any unauthorized or unlawful actions taken by individuals outside the scope of this educational event. It is essential to use acquired knowledge responsibly and within legal boundaries.

PREVENTIVE MEASURES

User Awareness

You as a user should be aware about phishing attacks and tactics used to exploit vulnerabilities.

Permission Management

Strictly manage app permissions, granting only necessary access to device resources such as camera, microphone, and location.

Download from Trusted Sources

Only download apps from official app stores or reputable sources, avoiding third-party or unknown sources.

ANY QUESTIONS ?

THANK YOU FOR YOUR ATTENTION
